

# Kilcoy Streetscape Revitalisation - Draft Master Plan Snapshot July 2023

## Introduction

Somerset Regional Council is excited to announce the second round of online engagement for the Kilcoy Streetscape Revitalisation project, which presents the draft master plan for community feedback. Strategically positioned as a gateway to renowned tourist destinations including some of the state's most popular natural assets, Kilcoy has a lot to offer for locals and visitors alike.

This project will define the identity of Kilcoy, building on what is already well loved about the township to enhance its appeal for everyone. The main outcome for this project will be the development of a master plan for the town centre and main streets, along with an exploration for short, medium and long-term actions setting a roadmap for how this future vision can be achieved. More specifically the project will consider things such as pedestrian footpaths; street trees and shade; street furniture and opportunities for public art; entry and wayfinding signage and public gathering spaces.

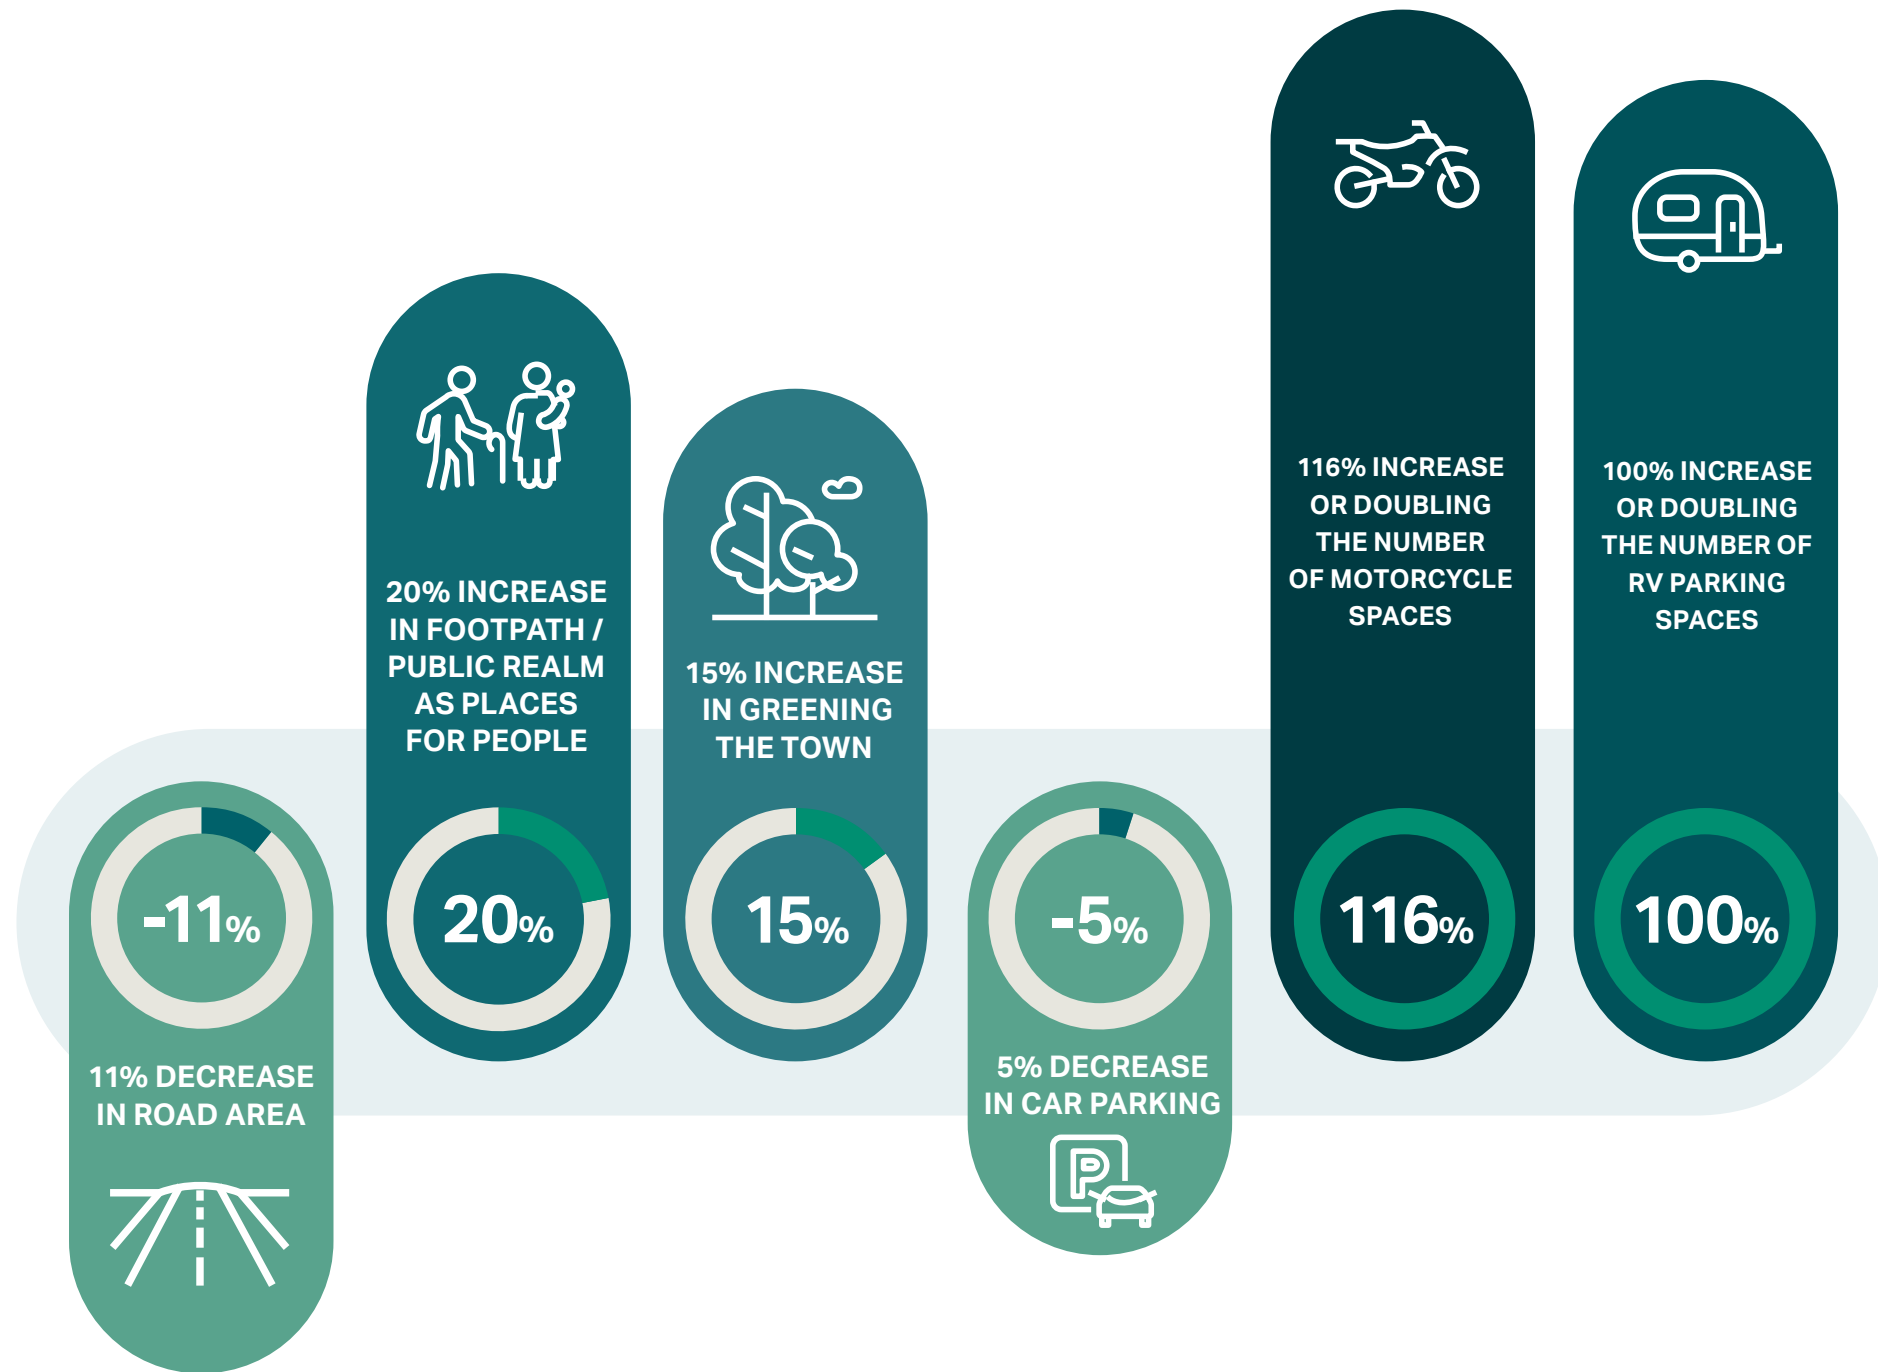

As with all places, Kilcoy's revitalisation will require support from all of us. There is a role for everyone in our community to contribute and we thank all of you who have participated to date.

By completing our online survey by the Friday 11th August 2023, together we will explore how our businesses, local residents, community groups and youth can work collaboratively to assist in delivering a shared vision to revitalise Kilcoy.

## Our Vision for Kilcoy

“*Kilcoy is a welcoming rural town that sits at the doorstep to the Somerset region and exemplifies all that the region has to offer. The town centre is a vibrant place for people and business framed by green parklands and active community destinations that are linked by shaded and safe streets and pathways.*”

*Its unique identity and rich heritage is told through the character of the place and community events that are engaging for locals and visitors alike and ensure it's a place that people are proud of and want to spend time in.*”

## Next Steps

# Kilcoy Streetscape Revitalisation - Draft Master Plan Snapshot July 2023

## LEGEND

- 1 Eastern Gateway
  - 2 Off street RV parking area. Potential future Public Toilet
  - 3 Town map and vertical gateway elements (ie: Recycled timber power poles/railway sleepers)
  - 4 Improvements to William Street service lane including footpath upgrades, street trees and place making
  - 5 Raised pedestrian crossings within services lanes
  - 6 Buffer planting and vertical trellis elements with creepers to Service Lanes along D'Agular Highway
  - 7 Town Green and Central Gateway: 'KILCOY' signage wall and trellis, community notice board, planted mounding, lawn and seating
  - 8 Existing Public Toilet and Bus Stop to be retained
  - 9 New 45 degree on street parking
  - 10 Zebra crossing
  - 11 Pedestrian crossing with planted build outs and central refuge (low planting to maintain sight lines)
  - 12 Improvements to Mary Street Retail zone including paved verges, street trees build outs and place activation
  - 13 Improvements to Mary Street Residential zone including turf verges, footpaths, street trees build outs and place activation
  - 14 Improvements to Hope Street including turf verges, footpaths, clearer truck parking, pedestrian crossing and refuge, street build outs
  - 15 Improvements to Yowie Park including town map, amphitheatre and staggered replacement of shade trees, improved Market layout
  - 16 Western Gateway
  - 17 Improvements to Aston Park including fitness stations, horse trail, learn to ride track / pump track, improved path connections with distance markers, picnic/bbq shelters, seating, lighting, parallel parking, bollards and place activation
-  Study Area
